

## **PARIS JOHNSON**

### **Bio**

#### **Passionate. Aroma. Relaxed. Individual. Scrubs**

Paris is an 11th grade student and also working to receive college credits in a Criminal Justice program. In her spare time, Paris is delighted to spend time in the kitchen, as only a Master Scientist would, creating organic body oils, body butters, lip balms, and sugar scrubs to help the environment and to help the users of these products to have more clear and beautiful skin. Paris also packages up her products in such a way that helps separate her from other youth competition. Paris is a go getter and will get you what you need if she does not have it.
